

Collective Worship Document 2009-2010

This material loosely follows the church year. Headteachers/Worship Co-ordinators, together with local clergy, may wish to use the themes alongside websites and other Collective Worship resources to plan acts of worship in your church school. Values and Virtues have been added again to allow greater flexibility when planning. Please be aware that some values have been repeated and you may find other values to fit the programme. (All church schools are different and will want to plan differently.)

At the back of this document there is a list of useful hymn books, SEAL materials, Bible verses relating to Virtues and Values, other resources, and a recommended concordance to help you find references quickly! Please use a Bible appropriate to the age group of your students

Information about many of the saints mentioned in this document can be found on our schools website.
